**UNAUDITED RESULTS FOR THE FIRST QUARTER OF 2013**

This announcement is issued pursuant to Rule 13.09 of the Rules Governing the Listing of the Securities of The Stock Exchange of Hong Kong Limited.

Melco Crown Entertainment Limited (“**Melco Crown Entertainment**” or “**the Company**”) (SEHK: 6883) (NASDAQ: MPEL), a developer and owner of casino gaming and entertainment resort facilities in Asia, today released its unaudited financial results for the first quarter of 2013, as part of its regular earnings disclosure practices for the Company’s American depository shares (“**ADSs**”), which are listed on the NASDAQ Global Select Market in the United States.

These unaudited results have been prepared in accordance with the United States Generally Accepted Accounting Principles (“**U.S. GAAP**”) which differ in certain respects from the International Financial Reporting Standards (“**IFRS**”).

Net revenue for the first quarter of 2013 was US\$1,144.9 million, representing an increase of approximately 11% from US\$1,026.9 million for the comparable period in 2012. The increase in net revenue was primarily attributable to higher group-wide rolling chip volumes and mass market gross gaming revenues, partially offset by a lower group-wide rolling chip win rate.

Adjusted EBITDA<sup>(1)</sup> was US\$273.5 million for the first quarter of 2013, as compared to Adjusted EBITDA of US\$242.5 million in the first quarter of 2012. The 13% year-over-year increase in Adjusted EBITDA was attributable to strong improvements in mass market performance at City of Dreams, improved group-wide rolling chip volume and our continued focus on cost control, partially offset by a lower group-wide rolling chip win rate.

On a U.S. GAAP basis, net income attributable to Melco Crown Entertainment for the first quarter of 2013 was US\$53.8 million, or US\$0.10 per ADS, compared with net income attributable to Melco Crown Entertainment of US\$122.1 million, or US\$0.22 per ADS, in the first quarter of 2012. The year-over-year decrease in net income was primarily attributable to the one-off charge on the extinguishment and modification of debt relating to the refinancing of the 10.25% senior notes together with increased net interest expenses and other finance costs resulting from Studio City financing, partially offset by strong growth in underlying operating performance. The net loss attributable to non-controlling interests during the first quarter of 2013 of US\$12.4 million was related to Studio City. The increase in net loss attributable to non-controlling interests was primarily attributable to the non-controlling interests’ share of Studio City financing costs during the quarter.

---

Mr. Lawrence Ho, Co-Chairman and Chief Executive Officer of Melco Crown Entertainment, commented, “I am pleased to announce another record quarter of EBITDA and EBITDA margin for our Company. We continue to deliver strong growth in gaming fundamentals and profitability through a clear focus on execution across our exceptional portfolio of operating assets.

“City of Dreams, our flagship integrated casino resort, has reinforced its position as the dominant premium mass market property in Macau, delivering 35% year-over-year growth in gaming revenues in the high margin mass table games segment during the first quarter. City of Dreams mass market tables were again the most productive mass market tables of all major properties in Macau, which is particularly important in a table constrained market. The property’s world-class array of hotel, entertainment and other non-gaming amenities, as well as its location in the fast growing Cotai region, positions City of Dreams to cater to the increasingly discerning Macau tourist who demands a more sophisticated leisure and tourism experience.

“Melco Crown Philippines, our majority owned subsidiary, recently completed a Top-Up Placement on the Philippines Stock Exchange raising approximately US\$325 million in net proceeds, excluding the over-allotment option which, together with a shareholder loan commitment made by Melco Crown Entertainment, are expected to provide the funding necessary to open our unique integrated casino resort in Manila in mid-2014. The resort in Manila is expected to have approximately 967 rooms and suites, 242 gaming tables and approximately 1,450 gaming machines in addition to a range of entertainment and other non-gaming amenities to attract a wide variety of local and inbound customers.

“This expansion into a new jurisdiction marks an exciting milestone in our Company’s history, providing us an opportunity to showcase our development and operating capabilities in one of the fastest growing markets in Asia.

“We maintain our strict approach to deploying capital, which is driven by an overriding objective of maximizing long term shareholder value. We believe that the reinvestment in our current operating assets, our Studio City project, and the expansion into Manila, as well as the planned phase three expansion at City of Dreams, are all clear examples of this strategy, which we believe will create meaningful value for our shareholders.

“The VIP segment in Macau has delivered robust growth in the first part of 2013 while the mass market table games segment remains on its impressive growth trajectory. We continue to be optimistic regarding the market’s performance in 2013 and beyond, and expect the introduction of new infrastructure and policy initiatives over the short to medium term, as well as the expansion of Hengqin Island, will further support visitation growth and increasing spend per customer as Macau offers a more diverse offering of entertainment and leisure amenities.”

### City of Dreams First Quarter Results

For the quarter ended March 31, 2013, net revenue at City of Dreams was US\$836.0 million compared to US\$716.8 million in the first quarter of 2012. City of Dreams generated Adjusted EBITDA of US\$246.9 million in the first quarter of 2013 compared to US\$198.0 million in the first quarter of 2012, an increase of 25%.

The significant year-over-year improvement in Adjusted EBITDA was primarily a result of substantial growth in mass market table games volumes and improved mass market table games hold percentage together with strong growth in rolling chip volumes, partially offset by a lower rolling chip win rate.

Rolling chip volume totaled US\$23.8 billion for the first quarter of 2013, up 24% from US\$19.2 billion in the first quarter of 2012, and the rolling chip win rate was 2.7% in the first quarter of 2013 versus 3.0% in the first quarter of 2012. The expected rolling chip win rate range is 2.7%–3.0%.

Mass market table games drop increased 20% to US\$1,038.4 million compared with US\$865.3 million in the first quarter of 2012. The mass market table games hold percentage was 32.5% in the first quarter of 2013, an increase from 28.8% in the same period last year.

Slot handle for the quarter ended March 31, 2013 was US\$1,026.6 million, up 50% from US\$685.0 million generated in the quarter ended March 31, 2012.

Total non-gaming revenue at City of Dreams in the first quarter of 2013 was US\$63.3 million, up from US\$58.6 million in the first quarter of 2012. Occupancy per available room in the first quarter of 2013 was 95% versus 91% in the first quarter of 2012. The average daily rate (“ADR”) in the first quarter of 2013 was US\$192 per occupied room, which compares with US\$189 in the first quarter of 2012.

### **Altira Macau First Quarter Results**

For the quarter ended March 31, 2013, net revenue at Altira Macau was US\$265.0 million versus US\$260.9 million in the quarter ended March 31, 2012. Altira Macau generated Adjusted EBITDA of US\$40.1 million in the first quarter of 2013 compared with Adjusted EBITDA of US\$55.1 million in the first quarter of 2012. The reduction in Adjusted EBITDA was primarily a result of a lower rolling chip win rate, partially offset by improved rolling chip volumes.

Rolling chip volume totaled US\$11.8 billion in the first quarter of 2013 versus US\$10.9 billion in the first quarter of 2012. In the first quarter of 2013, the rolling chip win rate was 2.9%, as compared to 3.1% for the same period a year ago. The expected rolling chip win rate range is 2.7%–3.0%.

In the mass market table games segment, drop totaled US\$164.8 million in the first quarter of 2013, an increase of 10% from US\$150.4 million generated in the comparable period in 2012. The mass market table games hold percentage was 15.0% in the first quarter of 2013 compared with 17.1% in the first quarter of last year.

Total non-gaming revenue at Altira Macau in the first quarter of 2013 was US\$9.0 million, up from US\$8.4 million in the first quarter of 2012. Occupancy per available room in the first quarter of 2013 was 99%, as compared with 97% with the comparable period in 2012. ADR was US\$232 per occupied room, compared to US\$225 in the first quarter of 2012.

### **Mocha Clubs First Quarter Results**

Net revenue from Mocha Clubs totaled US\$34.0 million in the first quarter of 2013, down from US\$37.3 million in the first quarter of 2012. Mocha Clubs generated US\$8.5 million of Adjusted EBITDA in the first quarter of 2013, a decrease of 11% when compared to Adjusted EBITDA of US\$9.6 million in the same period in 2012.

The number of gaming machines in operation at Mocha Clubs averaged approximately 2,000 in the first quarter of 2013, compared to approximately 2,100 in the comparable period in 2012. The net win per gaming machine per day was US\$214 in the quarter ended March 31, 2013, as compared with US\$194 in the same period in 2012, an increase of 10%.

### **Melco Crown (Philippines) Resorts Corporation (“MCP”) First Quarter Results**

MCP, our majority owned subsidiary in the Philippines, incurred approximately US\$4.8 million of operating expenses in the first quarter of 2013, which primarily relate to general and administrative expenses, land rental payments and other fees and costs associated with the corporate reorganization of MCP.

MCP recorded a net loss of approximately US\$8.3 million as a result of operating losses and foreign exchange losses, as well as approximately US\$3.5 million of capital lease charges relating to building lease payments incurred during the first quarter of 2013.

### **Other Factors Affecting Earnings**

Total non-operating expense for the first quarter of 2013 was US\$116.6 million, which included US\$41.4 million in net interest expense, other finance costs of US\$9.4 million, and a US\$61.4 million one-off charge associated with the extinguishment and modification of debt relating to the refinancing of our 10.25% senior notes. Non-operating expense also included a foreign exchange loss of US\$4.4 million, compared to a foreign exchange gain of US\$2.1 million in the comparable period of 2012. There was US\$4.1 million of capitalized interest during the first quarter of 2013, primarily relating to Studio City. The year-on-year increase in non-operating expenses of US\$92.8 million was predominantly due to the higher net interest expenses and other finance costs associated with the Studio City financing and the one-off costs associated with the extinguishment and modification of debt, as well as the foreign exchange loss during the first quarter of 2013. Melco Crown Entertainment also incurred US\$17.1 million of development costs, which predominantly relate to fees and costs associated with the corporate reorganization of MCP by the Company.

Depreciation and amortization costs of US\$94.8 million were recorded in the first quarter of 2013, of which US\$14.3 million was related to the amortization of our gaming sub-concession and US\$15.9 million was related to the amortization of land use rights.

---

**Financial Position and Capital Expenditure**

Cash and cash equivalents as of March 31, 2013 totaled US\$2.5 billion, including US\$1.0 billion of restricted cash. Total debt at the end of the first quarter of 2013 was US\$2.7 billion, and total net debt to shareholders' equity as of March 31, 2013 was 6%.

As at March 31, 2013, the capital lease obligation in relation to building lease payments for MCP totaled US\$289.0 million.

Capital expenditures for the first quarter of 2013 were US\$78.9 million, which primarily related to Studio City and MCP, as well as various projects at City of Dreams.

### Safe Harbor Statement

This announcement contains forward-looking statements. These statements are made under the “safe harbor” provisions of the U.S. Private Securities Litigation Reform Act of 1995. The Company may also make written or oral forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission (the “SEC”), in its annual report to shareholders, in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Statements that are not historical facts, including statements about the Company’s beliefs and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties, and a number of factors could cause actual results to differ materially from those contained in any forward-looking statement. These factors include, but are not limited to, (i) growth of the gaming market and visitation in Macau, (ii) capital and credit market volatility, (iii) local and global economic conditions, (iv) our anticipated growth strategies, and (v) our future business development, results of operations and financial condition. In some cases, forward-looking statements can be identified by words or phrases such as “may”, “will”, “expect”, “anticipate”, “target”, “aim”, “estimate”, “intend”, “plan”, “believe”, “potential”, “continue”, “is/are likely to” or other similar expressions. Further information regarding these and other risks, uncertainties or factors is included in the Company’s filings with the SEC. All information provided in this announcement is as of the date of this release, and the Company undertakes no duty to update such information, except as required under applicable law.

### Non-GAAP Financial Measures

- (1) “Adjusted EBITDA” is earnings before interest, taxes, depreciation, amortization, pre-opening costs, development costs, property charges and others, share-based compensation, other non-operating income and expenses and net loss attributable to non-controlling interests. “Adjusted property EBITDA” is earnings before interest, taxes, depreciation, amortization, pre-opening costs, development costs, property charges and others, share-based compensation, corporate and others expenses, other non-operating income and expenses and net loss attributable to non-controlling interests. Adjusted EBITDA and adjusted property EBITDA are presented exclusively as a supplemental disclosure because management believes that they are widely used to measure the performance, and as a basis for valuation, of gaming companies. Management uses adjusted EBITDA and adjusted property EBITDA as measures of the operating performance of its segments and to compare the operating performance of its properties with those of its competitors. The Company also presents adjusted EBITDA and adjusted property EBITDA because they are used by some investors as ways to measure a company’s ability to incur and service debt, make capital expenditures, and meet working capital requirements. Gaming companies have historically reported adjusted EBITDA and adjusted property EBITDA as supplements to financial measures in accordance with U.S. generally accepted accounting principles (“GAAP”). However, adjusted EBITDA and adjusted property EBITDA should not be considered as alternatives to operating income as indicators of the Company’s performance, as alternatives to cash flows from operating activities as measures of liquidity, or as alternatives to any other measure determined in accordance with GAAP. Unlike net income, adjusted EBITDA and adjusted property EBITDA do not include depreciation and amortization or interest expense and therefore do not reflect current or future capital expenditures or the cost of capital. The Company compensates for these limitations by using adjusted EBITDA and adjusted property EBITDA as only two of several comparative tools, together with GAAP measurements, to assist in the evaluation of operating performance.

---

Such GAAP measurements include operating income (loss), net income (loss), cash flows from operations and cash flow data. The Company has significant uses of cash flows, including capital expenditures, interest payments, debt principal repayments, taxes and other non-recurring charges, which are not reflected in adjusted EBITDA or adjusted property EBITDA. Also, the Company's calculation of adjusted EBITDA and adjusted property EBITDA may be different from the calculation methods used by other companies and, therefore, comparability may be limited. Reconciliations of adjusted EBITDA and adjusted property EBITDA with the most comparable financial measures calculated and presented in accordance with GAAP are provided herein immediately following the financial statements included in this announcement.

- (2) "Adjusted net income" is net income before pre-opening costs, development costs, property charges and others, change in fair value of interest rate swap agreements, loss on extinguishment of debt and costs associated with debt modification. Adjusted net income and adjusted net income per share ("EPS") are presented as supplemental disclosures because management believes that they are widely used to measure the performance, and as a basis for valuation, of gaming companies. These measures are used by management and/or evaluated by some investors, in addition to income and EPS computed in accordance with GAAP, as an additional basis for assessing period-to-period results of our business. Adjusted net income may be different from the calculation methods used by other companies and, therefore, comparability may be limited. Reconciliations of adjusted net income with the most comparable financial measures calculated and presented in accordance with GAAP are provided herein immediately following the financial statements included in this announcement.
