-
- “Macau” and “Macau SAR” refer to the Macau Special Administrative Region of the People’s Republic of China;
 - “Melco Crown (COD) Developments Limited” refers to our subsidiary, a Macau company through which we hold the land and buildings for City of Dreams;
 - “Melco Crown Macau” refers to our subsidiary, Melco Crown (Macau) Limited (formerly known as “Melco Crown Gaming (Macau) Limited” or “Melco PBL Gaming (Macau) Limited”), a Macau company and the holder of our gaming subconcession;
 - “Mocha Clubs” collectively refers to clubs with gaming machines, the first of which opened in September 2003, and are now the largest non-casino based operations of electronic gaming machines in Macau, and operated by Melco Crown Macau;
 - “Our gaming subconcession” refers to the Macau gaming subconcession held by Melco Crown Macau;
 - “Patacas” and “MOP” refer to the legal currency of Macau;
 - “US\$” and “U.S. dollars” refer to the legal currency of the United States;
 - “U.S. GAAP” refers to the accounting principles generally accepted in the United States; and
 - “we”, “us”, “our company” and “our” refer to MCE Finance Limited and, as the context requires, its predecessor entities and its consolidated subsidiaries.

This quarterly report includes our unaudited condensed consolidated financial statements for the three months ended March 31, 2014.

Any discrepancies in any table between totals and sums of amounts listed therein are due to rounding. Accordingly, figures shown as totals in certain tables may not be an arithmetic aggregation of the figures preceding them.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This quarterly report contains forward-looking statements that relate to future events, including our future operating results and conditions, our prospects and our future financial performance and condition, all of which are largely based on our current expectations and projections. Known and unknown risks, uncertainties and other factors may cause our actual results, performance or achievements to be materially different from any future results, performances or achievements expressed or implied by the forward-looking statements. Moreover, because we operate in a heavily regulated and evolving industry, may become highly leveraged, and operate in Macau, a market that has recently experienced extremely rapid growth and intense competition, new risk factors may emerge from time to time. It is not possible for our management to predict all risk factors, nor can we assess the impact of these factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those expressed or implied in any forward-looking statement. Forward-looking statements involve inherent risks and uncertainties, and a number of factors could cause actual results to differ materially from those contained in any forward-looking statement. These factors include, but are not limited to, (i) growth of the gaming market and visitation in Macau, (ii) capital and credit market volatility, (iii) local and global economic conditions, (iv) our anticipated growth strategies, and (v) our future business development, results of operations and financial condition. In some cases, forward-looking statements can be identified by words or phrases such as “may”, “will”, “expect”, “anticipate”, “target”, “aim”, “estimate”, “intend”, “plan”, “believe”, “potential”, “continue”, “is/are likely to” or other similar expressions.

The forward-looking statements made in this quarterly report relate only to events or information as of the date on which the statements are made in this quarterly report. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. You should read this quarterly report with the understanding that our actual future results may be materially different from what we expect.

EXCHANGE RATE INFORMATION

Although we will have certain expenses and revenues denominated in Patacas, our revenues and expenses will be denominated predominantly in H.K. dollars and in connection with a portion of our indebtedness and certain expenses, U.S. dollars. Unless otherwise noted, all translations from H.K. dollars to U.S. dollars and from U.S. dollars to H.K. dollars in this quarterly report were made at a rate of HK\$7.78 to US\$1.00.

The H.K. dollar is freely convertible into other currencies (including the U.S. dollar). Since October 17, 1983, the H.K. dollar has been officially linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has stated its intention to maintain the link at that rate, and it, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar or at all.

The noon buying rate on March 31, 2014 in New York City for cable transfers in H.K. dollar per U.S. dollar, as certified for customs purposes by the H.10 weekly statistical release of the Federal Reserve Board of the United States, or the Federal Reserve Board, was HK\$7.7567 to US\$1.00. On May 16, 2014, the noon buying rate was HK\$7.7520 to US\$1.00. We make no representation that any H.K. dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or H.K. dollars, as the case may be, at any particular rate or at all.

The Pataca is pegged to the H.K. dollar at a rate of HK\$1.00 = MOP1.03. All translations from Patacas to U.S. dollars in this quarterly report were made at the exchange rate of MOP8.0134 = US\$1.00. The Federal Reserve Board does not certify for customs purposes a noon buying rate for cable transfers in Patacas.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in connection with our unaudited condensed consolidated financial statements included elsewhere in this quarterly report. Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The historical results are not necessarily indicative of the results of operations to be expected in the future. Certain statements in this “Financial Condition and Results of Operations” are forward-looking statements.

Summary of Financial Results

For the first quarter of 2014, our total net revenues were US\$1.38 billion, an increase of 19.2% from US\$1.15 billion of net revenues for the first quarter of 2013. Net income for the first quarter of 2014 was US\$252.6 million, as compared to US\$103.4 million for the first quarter of 2013. The increase in net revenue was primarily attributable to improved group-wide revenues across all gaming segments, particularly in the mass market table games segment.

Net income for the first quarter of 2014 was US\$252.6 million, compared with net income of US\$103.4 million in the first quarter of 2013. The year-over-year increase in net income was primarily attributable to the significant growth in group-wide operating performance and the one-off charge on extinguishment and modification of debt relating to the refinancing of the 2010 Senior Notes in the first quarter of 2013.

The following summarizes the results of our operations:

	Three Months Ended March 31,	
	2014	2013
	(In thousands of US\$)	
Net revenues	\$ 1,376,193	\$ 1,154,051
Total operating costs and expenses	\$ (1,104,833)	\$ (966,506)
Operating income	\$ 271,360	\$ 187,545
Net income	\$ 252,591	\$ 103,397

Results of Operations

City of Dreams First Quarter Results

For the first quarter of 2014, net revenue at City of Dreams was US\$1,075.0 million compared to US\$837.9 million in the first quarter of 2013. The strong year-over-year improvement in net revenue was primarily driven by the 44.4% year-over-year improvement in mass table games gross gaming revenue, together with an increase in rolling chip volumes and a higher rolling chip win rate.

Rolling chip volume totaled US\$24.6 billion for the first quarter of 2014 versus US\$23.8 billion in the first quarter of 2013. The rolling chip win rate was 3.0% in the first quarter of 2014 versus 2.7% in the first quarter of 2013. The expected rolling chip win rate range is 2.7%–3.0%.

Mass market table games drop increased 25% to US\$1,299.1 million compared with US\$1,038.4 million in the first quarter of 2013. The mass market table games hold percentage was 37.5% in the first quarter of 2014, an increase from 32.5% in the first quarter of 2013.

Gaming machine handle for the quarter ended March 31, 2014 was US\$1,489.7 million, up 45.1% from US\$1,026.6 million generated in the quarter ended March 31, 2013.

Total non-gaming revenue at City of Dreams in the first quarter of 2014 was US\$71.4 million, up from US\$65.2 million in the first quarter of 2013.

Altira Macau First Quarter Results

For the quarter ended March 31, 2014, net revenue at Altira Macau was US\$229.9 million compared to US\$265.2 million in the first quarter of 2013. The year-over-year decrease in net revenue was primarily driven by lower rolling chip volume, partially offset by higher mass market table games revenues.

Rolling chip volume totaled US\$10.1 billion in the first quarter of 2014 versus US\$11.8 billion in the first quarter of 2013. The rolling chip win rate remained stable at 2.9% in the first quarter of 2014 and 2013. The expected rolling chip win rate range is 2.7%–3.0%.

In the mass market table games segment, drop totaled US\$203.8 million in the first quarter of 2014, an increase of 23.7% from US\$164.8 million generated in the comparable period in 2013. The mass market table games hold percentage was 13.3% in the first quarter of 2014 compared with 15.0% in the first quarter of 2013.

Total non-gaming revenue at Altira Macau in the first quarter of 2014 was US\$9.5 million, up from US\$9.2 million in the first quarter of 2013.

Mocha Clubs First Quarter Results

Net revenue from Mocha Clubs totaled US\$39.5 million in the first quarter of 2014, up 16.1% from US\$34.0 million in the first quarter of 2013.

The number of gaming machines in operation at Mocha Clubs averaged approximately 1,400 in the first quarter of 2014, compared to approximately 2,000 in the comparable period in 2013 due to the closure of three clubs offset by a new club opened in late 2013. The net win per gaming machine per day was US\$316 in the quarter ended March 31, 2014 as compared with US\$214 in the comparable period in 2013, an increase of 47.7%.

Other Factors Affecting Earnings

Total net non-operating expenses for the first quarter of 2014 were US\$18.3 million, which mainly included an interest income of US\$2.3 million and interest expenses, net of capitalized interest, of US\$14.8 million and other finance costs of US\$4.6 million, as compared to a total net non-operating expenses of US\$84.3 million for the first quarter of 2013, which mainly included an interest income of US\$1.1 million and interest expenses, net of capitalized interest, of US\$19.0 million, other finance costs of US\$3.8 million and a US\$60.8 million one-off charge associated with the extinguishment and modification of debt relating to the refinancing of 2010 Senior Notes. The year-on-year decrease in net non-operating expenses of US\$66.0 million was primarily due to the one-off charge on extinguishment and modification of debt in the first quarter of 2013, lower interest expenses upon our repayment of revolving credit facility and the scheduled repayments of the term loan under the 2011 Credit Facilities and refinancing of 2010 Senior Notes as well as higher capitalized interest in the current quarter.

Depreciation and amortization costs of US\$82.1 million were recorded in the first quarter of 2014, of which US\$14.3 million was related to the amortization of our gaming subconcession and US\$5.2 million was related to the amortization of land use rights.

Liquidity and Capital Resources

We have relied and intend in the future to rely on our cash generated from our operations and our debt and equity financings to meet our financing needs and repay our indebtedness, as the case may be.

As of March 31, 2014, we held cash and cash equivalents and bank deposits with original maturity over three months of US\$1,244.1 million and US\$410.6 million, respectively, and HK\$3.12 billion (equivalent to approximately US\$401.1 million) of the 2011 Credit Facilities remained available for future drawdown.

Cash Flows

The following table sets forth a summary of our cash flows for the periods indicated:

	Three Months Ended March 31,	
	2014	2013
	(In thousands of US\$)	
Net cash provided by operating activities	\$ 275,429	\$ 220,594
Net cash provided by (used in) investing activities	61,208	(542,127)
Net cash (used in) provided by financing activities	(257,179)	69,248
Net increase (decrease) in cash and cash equivalents	79,458	(252,285)
Cash and cash equivalents at beginning of period	1,164,682	1,516,952
Cash and cash equivalents at end of period	<u>\$ 1,244,140</u>	<u>\$ 1,264,667</u>

Operating Activities

Operating cash flows are generally affected by changes in operating income and accounts receivable with VIP table games play and hotel operations conducted on a cash and credit basis and the remainder of the business, including mass market table games play, gaming machine play, food and beverage, and entertainment are conducted primarily on a cash basis.

Net cash provided by operating activities was US\$275.4 million for the first quarter of 2014, compared to US\$220.6 million for the first quarter of 2013. The year-over-year increase in net cash provided by operating activities for both periods were mainly attributable to strong growth in underlying operating performance as described in the foregoing section.

Investing Activities

Net cash provided by investing activities was US\$61.2 million for the first quarter of 2014, compared to net cash used in investing activities of US\$542.1 million for the first quarter of 2013, primarily due to the transfer of US\$176.5 million from bank deposits with original maturity over three months to cash and cash equivalents upon maturity, partially offset by our advance to shareholder of US\$76.8 million, capital expenditure payments of US\$36.8 million and deposits for acquisition of property and equipment of US\$1.4 million.

Our advance to shareholder amounted to US\$76.8 million and US\$501.5 million for the first quarter of 2014 and 2013, respectively.

Our total capital expenditure payments for the first quarter of 2014 were US\$36.8 million, as compared to US\$28.5 million for the first quarter of 2013. Such capital expenditures for both periods were mainly associated with enhancements to our integrated resort offerings.

As of March 31, 2014, we have placed bank deposits of US\$410.6 million with their original maturity over three months for a better yield.

Financing Activities

Net cash used in financing activities amounted to US\$257.2 million for the first quarter of 2014 primarily represented the dividends payment of US\$193.0 million and the scheduled repayment of the term loan under 2011 Credit facilities of US\$64.2 million.

Net cash provided by financing activities amounted to US\$69.2 million for the first quarter of 2013, primarily from proceeds of the issuance of 2013 Senior Notes of US\$1.0 billion, partially offset by the early redemption of 2010 Senior Notes of US\$600.0 million and the associated redemption costs of US\$102.5 million, the repayment of the drawn revolving credit facility under 2011 Credit facilities of US\$212.5 million, and the payment of debt issuance cost associated with 2013 Senior Notes of US\$15.8 million.

Indebtedness

The following table presents a summary of our indebtedness as of March 31, 2014:

	As of March 31, 2014
	(In thousands of US\$)
2013 Senior Notes	\$ 1,000,000
2011 Credit Facilities	<u>609,704</u>
	<u>\$ 1,609,704</u>

Except for the scheduled repayment of the term loan under the 2011 Credit Facilities of US\$64.2 million during the first quarter of 2014, there was no other change in our indebtedness as of March 31, 2014 as compared to December 31, 2013.

 - “Studio City Project” or the “Project” refers to the first phase of our project to develop the Studio City site into a large-scale integrated leisure resort called “Studio City” combining 5-star luxury hotel and related facilities, gaming capacity, retail, attractions and entertainment venues (including a multipurpose entertainment studio);
 - “US\$” and “U.S. dollars” refer to the legal currency of the United States;
 - “U.S. GAAP” refers to the accounting principles generally accepted in the United States; and
 - “we”, “us”, “our company” and “our” refer to Studio City Finance Limited and, as the context requires, its predecessor entities and its consolidated subsidiaries.

This quarterly report includes our unaudited condensed consolidated financial statements for the three months ended March 31, 2014.

Any discrepancies in any table between totals and sums of amounts listed therein are due to rounding. Accordingly, figures shown as totals in certain tables may not be an arithmetic aggregation of the figures preceding them.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This quarterly report contains forward-looking statements that relate to future events, including our future operating results and conditions, our prospects and our future financial performance and condition, all of which are largely based on our current expectations and projections. Known and unknown risks, uncertainties and other factors may cause our actual results, performance or achievements to be materially different from any future results, performances or achievements expressed or implied by the forward-looking statements. Moreover, because we operate in a heavily regulated and evolving industry, may become highly leveraged, and operate in Macau, a market that has recently experienced extremely rapid growth and intense competition, new risk factors may emerge from time to time. It is not possible for our management to predict all risk factors, nor can we assess the impact of these factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those expressed or implied in any forward-looking statement. Forward-looking statements involve inherent risks and uncertainties, and a number of factors could cause actual results to differ materially from those contained in any forward-looking statement. These factors include, but are not limited to, (i) growth of the gaming market and visitation in Macau, (ii) capital and credit market volatility, (iii) local and global economic conditions, (iv) our anticipated growth strategies, and (v) our future business development, results of operations and financial condition. In some cases, forward-looking statements can be identified by words or phrases such as “may”, “will”, “expect”, “anticipate”, “target”, “aim”, “estimate”, “intend”, “plan”, “believe”, “potential”, “continue”, “is/are likely to” or other similar expressions.

The forward-looking statements made in this quarterly report relate only to events or information as of the date on which the statements are made in this quarterly report. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. You should read this quarterly report with the understanding that our actual future results may be materially different from what we expect.

EXCHANGE RATE INFORMATION

Although we will have certain expenses and revenues denominated in Patacas, our revenues and expenses will be denominated predominantly in H.K. dollars and in connection with a portion of our indebtedness and certain expenses, U.S. dollars. Unless otherwise noted, all translations from H.K. dollars to U.S. dollars and from U.S. dollars to H.K. dollars in this quarterly report were made at a rate of HK\$7.78 to US\$1.00.

The H.K. dollar is freely convertible into other currencies (including the U.S. dollar). Since October 17, 1983, the H.K. dollar has been officially linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has stated its intention to maintain the link at that rate, and it, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar or at all.

The noon buying rate on March 31, 2014 in New York City for cable transfers in H.K. dollar per U.S. dollar, as certified for customs purposes by the H.10 weekly statistical release of the Federal Reserve Board of the United States, or the Federal Reserve Board, was HK\$7.7567 to US\$1.00. On May 16, 2014, the noon buying rate was HK\$7.7520 to US\$1.00. We make no representation that any H.K. dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or H.K. dollars, as the case may be, at any particular rate or at all.

The Pataca is pegged to the H.K. dollar at a rate of HK\$1.00 = MOP1.03. All translations from Patacas to U.S. dollars in this quarterly report were made at the exchange rate of MOP8.0134 = US\$1.00. The Federal Reserve Board does not certify for customs purposes a noon buying rate for cable transfers in Patacas.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in connection with our unaudited condensed consolidated financial statements included elsewhere in this quarterly report. Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The historical results are not necessarily indicative of the results of operations to be expected in the future. Certain statements in this “Financial Condition and Results of Operations” are forward-looking statements.

Results of Operations

We are currently in the development stage, and as a result there is no revenue and cash provided by our intended operations. Accordingly, the activities reflected in our consolidated statements of operations mainly relate to general and administrative expenses, amortization of land use right, interest expenses, other finance costs and pre-opening costs. Consequently, as is typical for a development stage company, we have incurred losses to date and expect these losses to continue to increase until we commence commercial operations with the planned opening of the Studio City Project in mid-2015.

Three Months Ended March 31, 2014 Compared to Three Months Ended March 31, 2013

For the three months ended March 31, 2014, we had a net loss of US\$13.5 million, a decrease of US\$8.0 million from a net loss of US\$21.5 million for the three months ended March 31, 2013, primarily due to higher interest capitalization upon our continuous development on Studio City.

Amortization of land use right expenses for the three months ended March 31, 2014 were US\$3.0 million, in-line with the same period in 2013.

Pre-opening costs for the three months ended March 31, 2014 were US\$0.9 million, compared to US\$0.6 million incurred for the three months ended March 31, 2013.

Interest expenses (net of capitalized interest) for the three months ended March 31, 2014 were US\$2.2 million, compared to US\$12.9 million for the three months ended March 31, 2013. The decrease in interest expenses (net of capitalized interest) of US\$10.7 million was primarily due to a higher interest capitalization of US\$10.1 million associated with the Studio City construction and development projects and a lower interest expenses on Studio City land use right payable of US\$0.6 million.

Other finance costs for the three months ended March 31, 2014 of US\$6.7 million, included US\$0.4 million of amortization of deferred financing costs associated with the Studio City Notes issued in November 2012 and loan commitment fees of US\$6.3 million associated with the Studio City Project Facility which became effective from January 28, 2013.

Liquidity and Capital Resources

We have relied and intend to rely on shareholder equity contributions and/or subordinated loans from our shareholders, net proceeds from Studio City Notes and a portion of the Studio City Project Facility to meet our development project needs through the opening of the Studio City Project. As a development stage company relying on such financing sources, our working capital balance may be negative from time to time as the source of funds will be from long-term debt while our liabilities are current. In addition, we expect our cash outflow to increase as we will have substantial payment obligations relating to various development capital expenditure, pre-opening and working capital expenses and debt financing obligations during the construction period.

As of March 31, 2014, we held restricted cash and cash equivalents of approximately US\$634.6 million. The restricted cash is comprised of unspent proceeds from offering of Studio City Notes, which were restricted only for payment of Project Costs of the Studio City Project in accordance with Studio City Notes and Studio City Project Facility terms.

Operating Activities

We are currently developing the Studio City Project and therefore there is no revenue and cash generated from our intended operations. Net cash used in operating activities during the presented periods in this quarterly report mainly represents general and administrative expenses, pre-opening costs and loan commitment fees associated with Studio City Project Facility paid during the period. For the three months ended March 31, 2014 and 2013, net cash used in operating activities were US\$7.3 million and US\$0.4 million respectively.

Investing Activities

Net cash provided by investing activities was US\$8.2 million for the three months ended March 31, 2014, as compared to US\$71.8 million used in investing activities for the three months ended March 31, 2013, primarily due to decrease in restricted cash of US\$134.3 million, partially offset by capital expenditure payment of US\$79.7 million, advance payments for construction of US\$23.2 million and land use right payment of US\$23.2 million.

The decrease in restricted cash of US\$134.3 million was primarily due to withdrawal and payment of Studio City Project Costs during the three months ended March 31, 2014 from bank accounts that are restricted for Studio City Project Costs in accordance with the terms of Studio City Notes and Studio City Project Facility.

Net cash used in investing activities was US\$71.8 million for the three months ended March 31, 2013, primarily due to capital expenditure payment of US\$56.1 million, advance payments for construction of US\$25.7 million and the scheduled installment payment of US\$22.1 million for Studio City's land premium, partially offset by decrease in restricted cash of US\$32.1 million.

The decrease in restricted cash of US\$32.1 million was primarily due to withdrawal and payment of Studio City Project Costs of US\$158.1 million during the three months ended March 31, 2013 from bank accounts that are restricted for Studio City Project Costs in accordance with the terms of Studio City Notes and Studio City Project Facility, partially offset by the funds transfer from Studio City Holdings, our immediate holding company, of US\$126.0 million as described below.

Financing Activities

Net cash used in financing activities was US\$0.9 million for the three months ended March 31, 2014, primarily due to the prepaid debt issuance costs of US\$0.9 million associated with Studio City Project Facility.

Net cash provided by financing activities was US\$72.2 million for the three months ended March 31, 2013, primarily from the advances from Studio City Holdings, our immediate holding company, which are unsecured and non-interest bearing, of US\$126.0 million. The advances from Studio City Holdings of US\$126.0 million were sourced through capital injections from MCE and New Cotai, shareholders of SCI. These were offset in part by the prepaid debt issuance costs of US\$52.3 million associated with Studio City Project Facility and payment of debt issuance cost associated with Studio City Notes of US\$1.5 million.

Indebtedness and Capital Contributions

As of March 31, 2014, our indebtedness amounted to US\$825.0 million, which represented the outstanding principal balance under the Studio City Notes. There was no change in our indebtedness as of March 31, 2014 as compared to December 31, 2013.

Under our Studio City Project Facility, we have HK\$10,855,880,000 (equivalent to approximately US\$1.4 billion), comprising a five year HK\$10,080,460,000 (equivalent to approximately US\$1.3 billion) delayed draw term loan facility and a HK\$775,420,000 (equivalent to approximately US\$100.0 million) revolving credit facility. The entire Studio City Project Facility remains available for future drawdown, subject to satisfaction of certain conditions precedent.

As of March 31, 2014, MCE and New Cotai, shareholders of SCI, have contributed US\$1,050.0 million in total (including US\$225.0 million as completion support cash collateral maintained at a bank of SCI) to the Studio City Project in accordance with the shareholder agreement. We believe that the significant equity investments of our shareholders provide us with a balanced capital structure.
