EXCHANGE RATE INFORMATION

Although we will have certain expenses and revenues denominated in Patacas, our revenues and expenses will be denominated predominantly in H.K. dollars and, in connection with a portion of our indebtedness and certain expenses, U.S. dollars. Unless otherwise noted, all translations from H.K. dollars to U.S. dollars and from U.S. dollars to H.K. dollars in this quarterly report were made at a rate of HK\$7.78 to US\$1.00.

The H.K. dollar is freely convertible into other currencies (including the U.S. dollar). Since October 17, 1983, the H.K. dollar has been officially linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has stated its intention to maintain the link at that rate, and it, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar or at all.

The noon buying rate on September 30, 2015 in New York City for cable transfers in H.K. dollar per U.S. dollar, as certified for customs purposes by the H.10 weekly statistical release of the Federal Reserve Board of the United States, or the Federal Reserve Board, was HK\$7.7499 to US\$1.00. On November 13, 2015, the noon buying rate was HK\$7.7509 to US\$1.00. We make no representation that any H.K. dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or H.K. dollars, as the case may be, at any particular rate or at all.

The Pataca is pegged to the H.K. dollar at a rate of HK\$1.00 = MOP1.03. All translations from Patacas to U.S. dollars in this quarterly report were made at the exchange rate of MOP8.0134 = US\$1.00. The Federal Reserve Board does not certify for customs purposes a noon buying rate for cable transfers in Patacas.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in connection with our unaudited condensed consolidated financial statements included elsewhere in this quarterly report. Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2014. The historical results are not necessarily indicative of the results of operations to be expected in the future. Certain statements in this "Financial Condition and Results of Operations" are forward-looking statements.

Summary of Financial Results

For the third quarter of 2015, our total net revenues were US\$0.88 billion, a decrease of 21.9% from US\$1.13 billion of net revenues for the third quarter of 2014. Net income for the third quarter of 2015 was US\$90.1 million, as compared to US\$177.7 million for the third quarter of 2014. The decline in profitability was primarily attributable to lower group-wide rolling chip revenues and mass market table games revenues.

The following summarizes the results of our operations:

Results of Operations

City of Dreams Third Quarter Results

For the third quarter of 2015, net revenue at City of Dreams was US\$671.5 million compared to US\$913.7 million in the third quarter of 2014. The decline in net revenue was primarily a result of lower rolling chip revenues and mass market table games revenues.

Rolling chip volume totaled US\$9.3 billion for the third quarter of 2015 versus US\$17.3 billion in the third quarter of 2014. The rolling chip win rate was 2.9% in the third quarter of 2015 versus 2.7% in the third quarter of 2014. The expected rolling chip win rate range is 2.7%-3.0%.

Mass market table games drop decreased to US\$1,190.3 million compared with US\$1,340.4 million in the third quarter of 2014. The mass market table games hold percentage was 35.1% in the third quarter of 2015 compared to 38.9% in the third quarter of 2014.

Gaming machine handle for the third quarter of 2015 was US\$1,211.3 million, compared with US\$1,551.7 million in the third quarter of 2014.

Total non-gaming revenue at City of Dreams in the third quarter of 2015 was US\$72.6 million, compared with US\$76.2 million in the third quarter of 2014.

Altira Macau Third Quarter Results

For the third quarter of 2015, net revenue at Altira Macau was US\$140.6 million compared to US\$160.5 million in the third quarter of 2014. The year-over-year decrease in net revenue was primarily a result of lower rolling chip revenues.

Rolling chip volume totaled US\$5.2 billion in the third quarter of 2015 versus US\$7.2 billion in the third quarter of 2014. The rolling chip win rate was 3.0% in the third quarter of 2015 versus 2.7% in the third quarter of 2014. The expected rolling chip win rate range is 2.7%-3.0%.

In the mass market table games segment, drop totaled US\$156.7 million in the third quarter of 2015, a decrease from US\$181.4 million generated in the comparable period in 2014. The mass market table games hold percentage was 19.4% in the third quarter of 2015 compared with 16.2% in the third quarter of 2014.

Gaming machine handle for the third quarter of 2015 was US\$11.2 million.

Total non-gaming revenue at Altira Macau in the third quarter of 2015 was US\$8.3 million compared with US\$9.1 million in the third quarter of 2014.

Mocha Clubs Third Quarter Results

Net revenue from Mocha Clubs totaled US\$36.1 million in the third quarter of 2015 as compared to US\$38.5 million in the third quarter of 2014.

The number of gaming machines in operation at Mocha Clubs averaged approximately 1,200 in the third quarter of 2015, compared to approximately 1,300 in the comparable period in 2014. The reduction in gaming machines reported by Mocha Clubs was primarily due to the transfer of the reporting of one club to Altira Macau in 2015. The net win per gaming machine per day was US\$318 in the third quarter of 2015, as compared with US\$306 in the comparable period in 2014.

Other Factors Affecting Third Quarter Earnings

Total net non-operating expenses for the third quarter of 2015 were US\$12.7 million, which mainly included interest income of US\$2.0 million, other income, net, of US\$8.1 million, interest expenses, net of capitalized interest, of US\$10.0 million, other finance costs of US\$6.3 million and foreign exchange loss, net, of US\$6.5 million, as compared to a total net non-operating expenses of US\$17.2 million for the third quarter of 2014, which included interest income of US\$1.6 million, interest expenses, net of capitalized interest, of US\$13.3 million, other finance costs of US\$4.5 million and foreign exchange loss, net, of US\$1.1 million. The year-on-year decrease of US\$4.5 million in net non-operating expenses was primarily due to higher capitalized interest in the current quarter and increase in other income.

Depreciation and amortization costs of US\$76.9 million were recorded in the third quarter of 2015, of which US\$14.3 million was related to the amortization of our gaming subconcession and US\$5.2 million was related to the amortization of land use rights.

Nine Months' Results

For the nine months ended September 30, 2015, our total net revenue was US\$2.77 billion compared to US\$3.71 billion for the nine months ended September 30, 2014. The year-over-year decrease in net revenue was primarily attributable to lower group-wide rolling chip revenues and mass market table games revenues.

Net income for the first nine months of 2015 was US\$306.6 million, compared with net income of US\$616.6 million in the comparable period of 2014. The year-over-year decrease in net income was primarily attributable to lower contribution from the group-wide rolling chip segment and mass market table games segment.

Liquidity and Capital Resources

We have relied and intend to rely on our cash generated from our operations and our debt and equity financings to meet our financing needs and repay our indebtedness, as the case may be.

As of September 30, 2015, we held unrestricted cash and cash equivalents, bank deposits with original maturity over three months and restricted cash of US\$900.0 million, US\$497.8 million and US\$19.6 million, respectively, and HK\$9.75 billion (approximately US\$1.25 billion) of the 2015 Credit Facilities remained available for future drawdown.

Operating Activities

Operating cash flows are generally affected by changes in operating income and accounts receivable with VIP table games play and hotel operations conducted on a cash and credit basis and the remainder of the business, including mass market table games play, gaming machine play, food and beverage, and entertainment are conducted primarily on a cash basis.

Net cash provided by operating activities was US\$186.2 million for the third quarter of 2015, compared to US\$270.1 million for the third quarter of 2014. The decrease in net cash provided by operating activities for the third quarter of 2015 was mainly due to decline in underlying operating performance as described in the foregoing section. While net cash provided by operating activities was US\$394.7 million for the nine months ended September 30, 2015, compared to US\$853.9 million for the nine months ended September 30, 2014. The decrease in net cash provided by operating activities for the nine months ended September 30, 2015 was mainly due to decline in underlying operating performance as described in the foregoing section and increased working capital for the operations.

Investing Activities

Net cash used in investing activities was US\$505.0 million for the third quarter of 2015, compared to US\$621.5 million for the third quarter of 2014. The decrease in net cash used in investing activities was primarily due to no advance to shareholder during the quarter and decrease in advance payments and deposits for acquisition of property and equipment, partially offset by an increase in placement of bank deposits with original maturity over three months and increased capital expenditure payments in the current quarter.

Net cash used in the investing activities of US\$505.0 million for the third quarter of 2015 mainly included placement of bank deposits with original maturity over three months of US\$392.8 million, capital expenditure payments of US\$100.8 million, advance payments and deposits for acquisition of property and equipment of US\$6.0 million and land use rights payment of US\$3.7 million.

Net cash used in investing activities of US\$621.5 million for the third quarter of 2014 mainly included an advance to shareholder of US\$381.8 million, placement of bank deposits with original maturity over three months of US\$110.6 million, capital expenditure payments of US\$89.1 million, advance payments and deposits for acquisition of property and equipment of US\$37.1 million and payment for land use rights of US\$3.5 million.

Our total capital expenditure payments for the third quarter of 2015 were US\$100.8 million, as compared to US\$89.1 million for the third quarter of 2014. Such capital expenditures for both periods were mainly associated with enhancements to our integrated resort offerings at City of Dreams. The increase was primarily due to the development of various projects at City of Dreams, including the fifth hotel tower and expansion of retail precinct. We also paid US\$3.7 million for the scheduled installment of City of Dreams' land premium payment for the third quarter of 2015.

Net cash used in investing activities was US\$626.0 million for the nine months ended September 30, 2015, compared to US\$218.7 million for the nine months ended September 30, 2014. The increase in net cash used in investing activities was primarily due to net placement of bank deposits with original maturity over three months, increased capital expenditure payments, increase in restricted cash, partially offset by the net repayment of advance to shareholder in the current period and the decrease in advance payments and deposits for acquisition of property and equipment.

Net cash used in investing activities of US\$626.0 million for the nine months ended September 30, 2015 mainly included a net increase in bank deposits with original maturity over three months of US\$387.2 million, capital expenditure payments of US\$253.8 million, increase in restricted cash of US\$18.9 million, advance payments and deposits for acquisition of property and equipment of US\$18.2 million and land use rights payment of US\$7.3 million, partially offset with the proceed from the net repayment of advance to shareholder of US\$62.1 million.

Net cash used in investing activities was US\$218.7 million for the nine months ended September 30, 2014, primarily due to our advance to shareholder of US\$458.6 million, capital expenditure payments of US\$177.7 million, advance payments and deposits for acquisition of property and equipment of US\$54.9 million and land use rights payment of US\$3.6 million, partially offset by a net decrease in bank deposits with original maturity over three months of US\$476.5 million.

The net increase in the amount of bank deposits with original maturity over three months was due to the new deposits placed during the period, partially offset by the withdrawal upon maturity of the deposits.

Our total capital expenditure payments for the nine months ended September 30, 2015 were US\$253.8 million, as compared to US\$177.7 million for nine months ended September 30, 2014. Such capital expenditures for both periods were mainly associated with enhancements to our integrated resort offerings at City of Dreams. The increase was primarily due to the development of various projects at City of Dreams, including the fifth hotel tower and expansion of retail precinct. We also paid US\$7.3 million for the scheduled installment of City of Dreams' land premium payment for the nine months ended September 30, 2015.

Financing Activities

Net cash used in financing activities amounted to US\$11.0 million for the third quarter of 2015 primarily represented the payment of debt issuance cost of US\$33.6 million associated with the 2015 Credit Facilities, offset in part by advance from an affiliated company of US\$22.6 million.

Net cash used in financing activities amounted to US\$64.2 million for the third quarter of 2014 primarily represented the scheduled repayment of the term loan under 2011 Credit Facilities.

Net cash used in financing activities amounted to US\$54.8 million for the nine months ended September 30, 2015 primarily represented the dividends payment of US\$150.0 million, the scheduled repayments of the term loan under 2011 Credit Facilities of US\$64.2 million and the payment of debt issuance cost of US\$46.5 million associated with the 2015 Credit Facilities, offset in part by the net proceeds from the refinancing of 2011 Credit Facilities by 2015 Credit Facilities of US\$148.3 million and advance from an affiliated company of US\$57.7 million.

Net cash used in financing activities amounted to US\$612.6 million for the nine months ended September 30, 2014 primarily represented the dividends payments of US\$420.0 million and the scheduled repayments of the term loan under 2011 Credit Facilities of US\$192.5 million.
