EXCHANGE RATE INFORMATION

Although we have certain expenses and revenues denominated in Patacas, our revenues and expenses are denominated predominantly in H.K. dollars and, in connection with a portion of our indebtedness and certain expenses, in U.S. dollars. Unless otherwise noted, all translations from H.K. dollars to U.S. dollars and from U.S. dollars to H.K. dollars in this quarterly report were made at the rate of HK\$7.78 to US\$1.00.

The H.K. dollar is freely convertible into other currencies (including the U.S. dollar). Since October 17, 1983, the H.K. dollar has been officially linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has stated its intention to maintain the link at that rate, and, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar or at all.

The noon buying rate on September 28, 2018 in New York City for cable transfers in H.K. dollars for U.S. dollars, provided in the H.10 weekly statistical release of the Federal Reserve Board of the United States as certified for customs purposes by the Federal Reserve Bank of New York, was HK\$7.8259 to US\$1.00. On November 23, 2018, the noon buying rate was HK\$7.8238 to US\$1.00. We make no representation that any H.K. dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or H.K. dollars, as the case may be, at any particular rate or at all.

The Pataca is pegged to the H.K. dollar at a rate of HK\$1.00 to MOP1.03. All translations from Pataca to U.S. dollar in this quarterly report were made at the exchange rate of MOP8.0134 to US\$1.00. The Federal Reserve Bank of New York does not certify for customs purposes a noon buying rate for cable transfers in Pataca.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in connection with our unaudited condensed consolidated financial statements included elsewhere in this quarterly report. Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2017. Our unaudited condensed consolidated financial statements have been prepared on the same basis as our audited consolidated financial statements for the year ended December 31, 2017, except for the adoption of Accounting Standards Codification 606, *Revenue from Contracts with Customers (Topic 606)* (“New Revenue Standard”) on January 1, 2018 under the modified retrospective method. Amounts for the periods beginning on or after January 1, 2018 are presented under the New Revenue Standard, while prior period amounts are not adjusted and continue to be reported in accordance with the previous basis. The historical results are not necessarily indicative of the results of operations to be expected in the future. Certain statements in this “Financial Condition and Results of Operations” are forward-looking statements.

Results of Operations

Studio City is a large-scale cinematically-themed integrated entertainment, retail and gaming resort which opened in October 2015. During the third quarter of 2018, Studio City Casino had approximately 288 gaming tables and approximately 938 gaming machines operating. The gaming operations of Studio City are focused on the mass market and target all ranges of mass market patrons. While Studio City focuses on the mass market segment for gaming, VIP rolling chip operations, including both junket and premium direct VIP offerings, were introduced at Studio City in early November 2016 and a VIP rolling chip area has been built at Studio City with 45 VIP tables as of September 30, 2018. Revenues from provision of gaming related services in relation to the Studio City Casino VIP gaming operations amounted to US\$12.3 million in the third quarter of 2018, compared with US\$16.8 million in the third quarter of 2017, representing a decrease of 27%. There is no assurance that VIP tables will continue to be operated at the Studio City Casino beyond November 2019.

Studio City also includes luxury hotel offerings and various entertainment, retail and food and beverage outlets to attract a diverse range of customers. Designed to focus on the mass market segment, Studio City offers cinematically-themed, unique and innovative interactive attractions, including the world’s first figure-8 and Asia’s highest Ferris wheel, a Warner Bros.-themed family entertainment center, a Batman film franchise digital ride, a 5,000 seat multi-purpose live performance arena and a nightclub, as well as approximately 1,600 hotel rooms, various food and beverage outlets and approximately 35,000 square meters (equivalent to approximately 377,000 square feet) of themed and innovative retail space.

Studio City Casino is operated by the Gaming Operator, one of the subsidiaries of Melco and holder of a gaming subconcession, and we operate the non-gaming businesses of Studio City. Studio City will assess and evaluate its focus on different market segments from time to time and will adjust its operations as appropriate.

Studio City sits within a ring-fenced credit group separate from its shareholders and Studio City’s debt obligations are not guaranteed by its shareholders. In particular, Melco is not a guarantor under the 2021 Studio City Senior Secured Credit Facility, the Studio City Finance Notes or the Studio City Company Notes. As such, SCI and its shareholders are not contractually required to provide any additional financial support to Studio City with respect to the Studio City debt obligations.

Under our current plan for the remaining project, the remaining project is expected to consist of two hotel towers with a total of approximately 940 rooms and a gaming area of approximately 2,000 square meters. In addition, we currently envision the remaining project to also contain a waterpark with approximately 10,000 square meters indoors and approximately 2,000 square meters outdoors. Other non-gaming attractions expected to be part of the remaining project include MICE space, retail and food and beverage outlets and a cineplex. Based on our current plan for the remaining project, we currently expect a project budget of approximately US\$1.35 billion to US\$1.40 billion for the development of the remaining project (exclusive of any pre-opening costs) and a construction period of approximately 32 months.

In February 2018, we announced that the Macau government granted an extension of the development period under the Studio City land concession contract. Pursuant to such extension, the development period for the land of Studio City has been extended to July 24, 2021. If we fail to fully develop our remaining project under the land concession contract by July 24, 2021, or receive a further extension of the development period from the Macau government, we may be forced to forfeit all or part of our investment in the granted land, along with our interest in Studio City.

The Adjusted EBITDA for Studio City as mentioned in Melco's unaudited third quarter 2018 earnings release dated November 8, 2018 does not reflect the intra-Melco group fees for the Master Services Agreements charged to Studio City Finance Limited and its subsidiaries and the costs related to VIP rolling chip operations at Studio City Casino under the Services and Right to Use Arrangements. The consolidated financials of Studio City Finance Limited contained in this report reflect such intra-Melco group fees charged and the costs related to VIP rolling chip operations at Studio City Casino under the Services and Right to Use Arrangements. In addition, the Adjusted EBITDA for Studio City mentioned above includes operating income or losses generated at Studio City by SCI's subsidiaries which are not subsidiaries of Studio City Finance Limited. Such operating income or losses are not included in the consolidated financials of Studio City Finance Limited. The total variance resulting from the above differences for the third quarter of 2018 is approximately US\$13 million.

Three Months Ended September 30, 2018 Compared to Three Months Ended September 30, 2017

For the third quarter of 2018, our total revenues were US\$143.4 million, an increase of US\$2.1 million, from US\$141.3 million of total revenues for the third quarter of 2017. The increase in total revenues was primarily due to the increase in revenues from the provision of gaming related services. The Company adopted the New Revenue Standard using the modified retrospective method from January 1, 2018. Results for the periods beginning on or after January 1, 2018 are presented under the New Revenue Standard, while prior year amounts are not adjusted and continue to be reported in accordance with the previous basis. There were no material impacts on our total revenues for the three months ended September 30, 2018 as a result of the adoption of the New Revenue Standard from January 1, 2018.

Net loss attributable to Studio City Finance Limited for the third quarter of 2018 was US\$6.5 million, an increase of US\$2.0 million from a net loss attributable to Studio City Finance Limited of US\$4.5 million for the third quarter of 2017, primarily due to a one-time special gift granted to non-management employees.

Studio City Casino generated gross gaming revenues of US\$397.9 million and US\$408.5 million for the third quarters of 2018 and 2017, respectively. Rolling chip volume totaled US\$5.1 billion for both quarters ended September 30, 2018 and 2017. The rolling chip win rate was 3.1% in the third quarter of 2018 versus 4.0% in the third quarter of 2017. The expected rolling chip win rate range is 2.7% - 3.0%. Mass market table games drop increased to US\$807.9 million in the third quarter of 2018 compared with US\$747.1 million in the third quarter of 2017. The mass market table games hold percentage was 27.2% in the third quarter of 2018 compared to 25.0% in the third quarter of 2017. Gaming machine handle for the third quarter of 2018 was US\$641.6 million, compared with US\$581.2 million in the third quarter of 2017. The gaming machine win rate was 2.9% in the third quarter of 2018 compared to 3.3% in the third quarter of 2017. After Melco Resorts Macau deducted gaming tax and the costs incurred in connection with its operation of Studio City Casino pursuant to the Services and Right to Use Arrangements from the gross gaming revenues, US\$82.0 million and US\$80.5 million were recognized as revenues from provision of gaming related services for the third quarters of 2018 and 2017, respectively.

Total non-gaming revenue for the third quarter of 2018 was US\$61.4 million, compared with US\$60.8 million for the third quarter of 2017.

Total net non-operating expenses for the third quarter of 2018 were US\$39.5 million, which mainly included interest expenses of US\$40.2 million, as compared to total net non-operating expenses of US\$39.3 million for the third quarter of 2017, which mainly included interest expenses of US\$40.0 million.

Depreciation and amortization costs of US\$42.7 million were recorded in the third quarter of 2018, of which US\$0.8 million was related to the amortization expense for the land use right.

Nine Months Ended September 30, 2018 Compared to Nine Months Ended September 30, 2017

For the nine months ended September 30, 2018, our total revenues were US\$425.2 million, an increase of US\$31.5 million, from US\$393.7 million of total revenues for the nine months ended September 30, 2017. The increase in total revenues was primarily due to the increase in revenues from the provision of gaming related services as a result of better performance in all gaming segments at Studio City Casino. There were no material impacts on our total revenues for the nine months ended September 30, 2018 as a result of the adoption of the New Revenue Standard from January 1, 2018.

Net loss attributable to Studio City Finance Limited for the nine months ended September 30, 2018 was US\$15.7 million, a decrease of US\$31.9 million from a net loss attributable to Studio City Finance Limited of US\$47.6 million for the nine months ended September 30, 2017, primarily due to the increased revenues from provision of gaming related services mentioned above.

Liquidity and Capital Resources

Up through the opening of Studio City, our principal sources of liquidity included shareholder equity contributions, loan facilities and senior notes facilities to meet our project development needs. Following the opening of Studio City in October 2015, we relied on, and intend to continue to rely on, our cash generated from our operations and our debt and equity financings.

On October 22, 2018, SCI completed an initial public offering of American depository shares (“ADSs” and such offering, the “IPO”) representing the Class A ordinary shares of SCI, and on November 19, 2018, SCI completed the closing of the exercise of the over-allotment option in relation to the IPO. SCI received total proceeds of approximately US\$406.7 million from the ADSs sold in the IPO, including the 28,750,000 ADSs sold initially and the 4,312,500 ADSs sold pursuant to the over-allotment option, and approximately US\$2.5 million from the concurrent private placement to Melco International Development Limited (“Melco International”) in connection with Melco International’s “assured entitlement” distribution to its shareholders, after deducting underwriting discounts and commissions but before deducting offering expenses payable by SCI.

As of September 30, 2018, we held cash and cash equivalents of US\$318.6 million, a bank deposit with an original maturity over three months of US\$20.0 million and restricted cash of US\$50.9 million. Restricted cash represented certain bank account balances required to be maintained in accordance with the terms of the respective agreements of the Studio City Finance Notes, the Studio City Company Notes and the 2021 Studio City Senior Secured Credit Facility. The revolving credit facility under the 2021 Studio City Senior Secured Credit Facility remains available for future drawdown, subject to satisfaction of certain conditions precedent.

Cash Flows

The following table sets forth a summary of our cash flows for the periods indicated. The consolidated cash flows data for the three and nine months ended September 30, 2017 have been adjusted to reflect the retrospective adoption on January 1, 2018 of Accounting Standards Update 2016-18 *Statement of Cash Flows (Topic 230): Restricted Cash (A Consensus of the FASB Emerging Issues Task Force)*. As a result of the adoption, restricted cash is included with cash and cash equivalents in the beginning and ending balances, and the changes in restricted cash that were previously reported within net cash used in investing activities in the consolidated statements of cash flows have been eliminated.

Operating Activities

Operating cash flows are generally affected by changes in operating income and certain operating assets and liabilities, including receivables related to the provision of gaming related services and hotel operations, as well as the non-gaming businesses, including food and beverage, entertainment, mall, retail and other, which are conducted primarily on a cash basis.

Net cash provided by operating activities was US\$76.0 million for the three months ended September 30, 2018, as compared to net cash provided by operating activities of US\$65.9 million for the three months ended September 30, 2017. The increase in net cash provided by operating activities was mainly attributable to decreased working capital for operations.

Net cash provided by operating activities was US\$152.0 million for the nine months ended September 30, 2018, as compared to net cash provided by operating activities of US\$88.4 million for the nine months ended September 30, 2017. The increase in net cash provided by operating activities was primarily due to the higher contribution of cash generated from the improving operations as described in the foregoing sections and decreased working capital for operations.

Investing Activities

Net cash used in investing activities was US\$9.8 million for the three months ended September 30, 2018 as compared to net cash used in investing activities of US\$9.9 million for the three months ended September 30, 2017. Net cash used in investing activities for the three months ended September 30, 2018 mainly included the capital expenditure payments of US\$13.2 million and funds paid to an affiliated company of US\$1.2 million, partially offset by the withdrawal of a bank deposit with original maturity over three months of US\$5.0 million.

Net cash used in investing activities for the three months ended September 30, 2017 mainly included the placement of a bank deposit with original maturity over three months of US\$4.9 million, capital expenditure payments of US\$3.4 million and funds paid to an affiliated company of US\$1.2 million.

Net cash used in investing activities was US\$141.6 million for the nine months ended September 30, 2018 as compared to net cash used in investing activities of US\$39.7 million for the nine months ended September 30, 2017. The change was primarily due to the increase in capital expenditure payments and net placement of bank deposits with original maturities over three months. Net cash used in investing activities for the nine months ended September 30, 2018 mainly included capital expenditure payments of US\$121.4 million, net placement of bank deposits with original maturities over three months of US\$15.1 million and funds paid to an affiliated company of US\$6.1 million.

Net cash used in investing activities for the nine months ended September 30, 2017 mainly included capital expenditure payments of US\$32.0 million, placement of a bank deposit with original maturity over three months of US\$4.9 million and funds paid to an affiliated company of US\$2.3 million.

EXCHANGE RATE INFORMATION

Although we have certain expenses and revenues denominated in Patacas, our revenues and expenses are denominated predominantly in H.K. dollars and, in connection with a portion of our indebtedness and certain expenses, in U.S. dollars. Unless otherwise noted, all translations from H.K. dollars to U.S. dollars and from U.S. dollars to H.K. dollars in this quarterly report were made at the rate of HK\$7.78 to US\$1.00.

The H.K. dollar is freely convertible into other currencies (including the U.S. dollar). Since October 17, 1983, the H.K. dollar has been officially linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has stated its intention to maintain the link at that rate, and, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar or at all.

The noon buying rate on September 28, 2018 in New York City for cable transfers in H.K. dollars for U.S. dollars, provided in the H.10 weekly statistical release of the Federal Reserve Board of the United States as certified for customs purposes by the Federal Reserve Bank of New York, was HK\$7.8259 to US\$1.00. On November 23, 2018, the noon buying rate was HK\$7.8238 to US\$1.00. We make no representation that any H.K. dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or H.K. dollars, as the case may be, at any particular rate or at all.

The Pataca is pegged to the H.K. dollar at a rate of HK\$1.00 to MOP1.03. All translations from Pataca to U.S. dollar in this quarterly report were made at the exchange rate of MOP8.0134 to US\$1.00. The Federal Reserve Bank of New York does not certify for customs purposes a noon buying rate for cable transfers in Pataca.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in connection with our unaudited condensed consolidated financial statements included elsewhere in this quarterly report. Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2017. Our unaudited condensed consolidated financial statements have been prepared on the same basis as our audited consolidated financial statements for the year ended December 31, 2017, except for the adoption of Accounting Standards Codification 606, *Revenue from Contracts with Customers (Topic 606)* (“New Revenue Standard”) on January 1, 2018 under the modified retrospective method. Amounts for the periods beginning on or after January 1, 2018 are presented under the New Revenue Standard, while prior period amounts are not adjusted and continue to be reported in accordance with the previous basis. The historical results are not necessarily indicative of the results of operations to be expected in the future. Certain statements in this “Financial Condition and Results of Operations” are forward-looking statements.

Results of Operations

Studio City is a large-scale cinematically-themed integrated entertainment, retail and gaming resort which opened in October 2015. During the third quarter of 2018, Studio City Casino had approximately 288 gaming tables and approximately 938 gaming machines operating. The gaming operations of Studio City are focused on the mass market and target all ranges of mass market patrons. While Studio City focuses on the mass market segment for gaming, VIP rolling chip operations, including both junket and premium direct VIP offerings, were introduced at Studio City in early November 2016 and a VIP rolling chip area has been built at Studio City with 45 VIP tables as of September 30, 2018. Revenues from provision of gaming related services in relation to the Studio City Casino VIP gaming operations amounted to US\$12.3 million in the third quarter of 2018, compared with US\$16.8 million in the third quarter of 2017, representing a decrease of 27%. There is no assurance that VIP tables will continue to be operated at the Studio City Casino beyond November 2019.

Studio City also includes luxury hotel offerings and various entertainment, retail and food and beverage outlets to attract a diverse range of customers. Designed to focus on the mass market segment, Studio City offers cinematically-themed, unique and innovative interactive attractions, including the world’s first figure-8 and Asia’s highest Ferris wheel, a Warner Bros.-themed family entertainment center, a Batman film franchise digital ride, a 5,000 seat multi-purpose live performance arena and a nightclub, as well as approximately 1,600 hotel rooms, various food and beverage outlets and approximately 35,000 square meters (equivalent to approximately 377,000 square feet) of themed and innovative retail space.

Studio City Casino is operated by the Gaming Operator, one of the subsidiaries of Melco and holder of a gaming subconcession, and we operate the non-gaming businesses of Studio City. Studio City will assess and evaluate its focus on different market segments from time to time and will adjust its operations as appropriate.

Studio City sits within a ring-fenced credit group separate from its shareholders and Studio City’s debt obligations are not guaranteed by its shareholders. In particular, Melco is not a guarantor under the 2021 Studio City Senior Secured Credit Facility, the Studio City Finance Notes or the Studio City Company Notes. As such, SCI and its shareholders are not contractually required to provide any additional financial support to Studio City with respect to the Studio City debt obligations.

Under our current plan for the remaining project, the remaining project is expected to consist of two hotel towers with a total of approximately 940 rooms and a gaming area of approximately 2,000 square meters. In addition, we currently envision the remaining project to also contain a waterpark with approximately 10,000 square meters indoors and approximately 2,000 square meters outdoors. Other non-gaming attractions expected to be part of the remaining project include MICE space, retail and food and beverage outlets and a cineplex. Based on our current plan for the remaining project, we currently expect a project budget of approximately US\$1.35 billion to US\$1.40 billion for the development of the remaining project (exclusive of any pre-opening costs) and a construction period of approximately 32 months.

In February 2018, we announced that the Macau government granted an extension of the development period under the Studio City land concession contract. Pursuant to such extension, the development period for the land of Studio City has been extended to July 24, 2021. If we fail to fully develop our remaining project under the land concession contract by July 24, 2021, or receive a further extension of the development period from the Macau government, we may be forced to forfeit all or part of our investment in the granted land, along with our interest in Studio City.

The Adjusted EBITDA for Studio City as mentioned in Melco's unaudited third quarter 2018 earnings release dated November 8, 2018 does not reflect the intra-Melco group fees for the Master Services Agreements charged to Studio City Investments Limited and its subsidiaries and the costs related to VIP rolling chip operations at Studio City Casino under the Services and Right to Use Arrangements. The consolidated financials of Studio City Investments Limited contained in this report reflect such intra-Melco group fees charged and the costs related to VIP rolling chip operations at Studio City Casino under the Services and Right to Use Arrangements. In addition, the Adjusted EBITDA for Studio City mentioned above includes operating income or losses generated at Studio City by SCI's subsidiaries which are not subsidiaries of Studio City Investments Limited. Such operating income or losses are not included in the consolidated financials of Studio City Investments Limited. The total variance resulting from the above differences for the third quarter of 2018 is approximately US\$13 million.

Three Months Ended September 30, 2018 Compared to Three Months Ended September 30, 2017

For the third quarter of 2018, our total revenues were US\$143.4 million, an increase of US\$2.1 million, from US\$141.3 million of total revenues for the third quarter of 2017. The increase in total revenues was primarily due to the increase in revenues from the provision of gaming related services. The Company adopted the New Revenue Standard using the modified retrospective method from January 1, 2018. Results for the periods beginning on or after January 1, 2018 are presented under the New Revenue Standard, while prior year amounts are not adjusted and continue to be reported in accordance with the previous basis. There were no material impacts on our total revenues for the three months ended September 30, 2018 as a result of the adoption of the New Revenue Standard from January 1, 2018.

Net loss attributable to Studio City Investments Limited for the third quarter of 2018 was US\$15.2 million, an increase of US\$3.6 million from a net loss attributable to Studio City Investments Limited of US\$11.6 million for the third quarter of 2017, primarily due to a one-time special gift granted to non-management employees.

Studio City Casino generated gross gaming revenues of US\$397.9 million and US\$408.5 million for the third quarters of 2018 and 2017, respectively. Rolling chip volume totaled US\$5.1 billion for both quarters ended September 30, 2018 and 2017. The rolling chip win rate was 3.1% in the third quarter of 2018 versus 4.0% in the third quarter of 2017. The expected rolling chip win rate range is 2.7% - 3.0%. Mass market table games drop increased to US\$807.9 million in the third quarter of 2018 compared with US\$747.1 million in the third quarter of 2017. The mass market table games hold percentage was 27.2% in the third quarter of 2018 compared to 25.0% in the third quarter of 2017. Gaming machine handle for the third quarter of 2018 was US\$641.6 million, compared with US\$581.2 million in the third quarter of 2017. The gaming machine win rate was 2.9% in the third quarter of 2018 compared to 3.3% in the third quarter of 2017. After Melco Resorts Macau deducted gaming tax and the costs incurred in connection with its operation of Studio City Casino pursuant to the Services and Right to Use Arrangements from the gross gaming revenues, US\$82.0 million and US\$80.5 million were recognized as revenues from provision of gaming related services for the third quarters of 2018 and 2017, respectively.

Total non-gaming revenue for the third quarter of 2018 was US\$61.4 million, compared with US\$60.8 million for the third quarter of 2017.

Total net non-operating expenses for the third quarter of 2018 were US\$49.5 million, which mainly included interest expenses of US\$50.2 million, as compared to total net non-operating expenses of US\$47.8 million for the third quarter of 2017, which mainly included interest expenses of US\$48.5 million.

Depreciation and amortization costs of US\$41.5 million were recorded in the third quarter of 2018, of which US\$0.8 million was related to the amortization expense for the land use right.

Nine Months Ended September 30, 2018 Compared to Nine Months Ended September 30, 2017

For the nine months ended September 30, 2018, our total revenues were US\$425.2 million, an increase of US\$31.5 million, from US\$393.7 million of total revenues for the nine months ended September 30, 2017. The increase in total revenues was primarily due to the increase in revenues from the provision of gaming related services as a result of better performance in all gaming segments at Studio City Casino. There were no material impacts on our total revenues for the nine months ended September 30, 2018 as a result of the adoption of the New Revenue Standard from January 1, 2018.

Net loss attributable to Studio City Investments Limited for the nine months ended September 30, 2018 was US\$40.7 million, a decrease of US\$27.4 million from a net loss attributable to Studio City Investments Limited of US\$68.1 million for the nine months ended September 30, 2017, primarily due to the increased revenues from provision of gaming related services mentioned above.

Liquidity and Capital Resources

Up through the opening of Studio City, our principal sources of liquidity included shareholder equity contributions, loan facilities and senior notes facilities to meet our project development needs. Following the opening of Studio City in October 2015, we relied on, and intend to continue to rely on, our cash generated from our operations and our debt and equity financings.

On October 22, 2018, SCI completed an initial public offering of American depository shares (“ADSs” and such offering, the “IPO”) representing the Class A ordinary shares of SCI, and on November 19, 2018, SCI completed the closing of the exercise of the over-allotment option in relation to the IPO. SCI received total proceeds of approximately US\$406.7 million from the ADSs sold in the IPO, including the 28,750,000 ADSs sold initially and the 4,312,500 ADSs sold pursuant to the over-allotment option, and approximately US\$2.5 million from the concurrent private placement to Melco International Development Limited (“Melco International”) in connection with Melco International’s “assured entitlement” distribution to its shareholders, after deducting underwriting discounts and commissions but before deducting offering expenses payable by SCI.

As of September 30, 2018, we held cash and cash equivalents of US\$318.6 million, a bank deposit with an original maturity over three months of US\$20.0 million and restricted cash of US\$27.5 million. Restricted cash represented certain bank account balances required to be maintained in accordance with the terms of the respective agreements of the Studio City Company Notes and the 2021 Studio City Senior Secured Credit Facility. The revolving credit facility under the 2021 Studio City Senior Secured Credit Facility remains available for future drawdown, subject to satisfaction of certain conditions precedent.

Cash Flows

The following table sets forth a summary of our cash flows for the periods indicated. The consolidated cash flows data for the three and nine months ended September 30, 2017 have been adjusted to reflect the retrospective adoption on January 1, 2018 of Accounting Standards Update 2016-18 *Statement of Cash Flows (Topic 230): Restricted Cash (A Consensus of the FASB Emerging Issues Task Force)*. As a result of the adoption, restricted cash is included with cash and cash equivalents in the beginning and ending balances, and the changes in restricted cash that were previously reported within net cash used in investing activities in the consolidated statements of cash flows have been eliminated.

EXCHANGE RATE INFORMATION

Although we have certain expenses and revenues denominated in Patacas, our revenues and expenses are denominated predominantly in H.K. dollars and, in connection with a portion of our indebtedness and certain expenses, in U.S. dollars. Unless otherwise noted, all translations from H.K. dollars to U.S. dollars and from U.S. dollars to H.K. dollars in this quarterly report were made at the rate of HK\$7.78 to US\$1.00.

The H.K. dollar is freely convertible into other currencies (including the U.S. dollar). Since October 17, 1983, the H.K. dollar has been officially linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has stated its intention to maintain the link at that rate, and, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar or at all.

The noon buying rate on September 28, 2018 in New York City for cable transfers in H.K. dollars for U.S. dollars, provided in the H.10 weekly statistical release of the Federal Reserve Board of the United States as certified for customs purposes by the Federal Reserve Bank of New York, was HK\$7.8259 to US\$1.00. On November 23, 2018, the noon buying rate was HK\$7.8238 to US\$1.00. We make no representation that any H.K. dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or H.K. dollars, as the case may be, at any particular rate or at all.

The Pataca is pegged to the H.K. dollar at a rate of HK\$1.00 to MOP1.03. All translations from Pataca to U.S. dollar in this quarterly report were made at the exchange rate of MOP8.0134 to US\$1.00. The Federal Reserve Bank of New York does not certify for customs purposes a noon buying rate for cable transfers in Pataca.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in connection with our unaudited condensed consolidated financial statements included elsewhere in this quarterly report. Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2017. Our unaudited condensed consolidated financial statements have been prepared on the same basis as our audited consolidated financial statements for the year ended December 31, 2017, except for the adoption of Accounting Standards Codification 606, *Revenue from Contracts with Customers (Topic 606)* (“New Revenue Standard”) on January 1, 2018 under the modified retrospective method. Amounts for the periods beginning on or after January 1, 2018 are presented under the New Revenue Standard, while prior period amounts are not adjusted and continue to be reported in accordance with the previous basis. The historical results are not necessarily indicative of the results of operations to be expected in the future. Certain statements in this “Financial Condition and Results of Operations” are forward-looking statements.

Results of Operations

Studio City is a large-scale cinematically-themed integrated entertainment, retail and gaming resort which opened in October 2015. During the third quarter of 2018, Studio City Casino had approximately 288 gaming tables and approximately 938 gaming machines operating. The gaming operations of Studio City are focused on the mass market and target all ranges of mass market patrons. While Studio City focuses on the mass market segment for gaming, VIP rolling chip operations, including both junket and premium direct VIP offerings, were introduced at Studio City in early November 2016 and a VIP rolling chip area has been built at Studio City with 45 VIP tables as of September 30, 2018. Revenues from provision of gaming related services in relation to the Studio City Casino VIP gaming operations amounted to US\$12.3 million in the third quarter of 2018, compared with US\$16.8 million in the third quarter of 2017, representing a decrease of 27%. There is no assurance that VIP tables will continue to be operated at the Studio City Casino beyond November 2019.

Studio City also includes luxury hotel offerings and various entertainment, retail and food and beverage outlets to attract a diverse range of customers. Designed to focus on the mass market segment, Studio City offers cinematically-themed, unique and innovative interactive attractions, including the world’s first figure-8 and Asia’s highest Ferris wheel, a Warner Bros.-themed family entertainment center, a Batman film franchise digital ride, a 5,000 seat multi-purpose live performance arena and a nightclub, as well as approximately 1,600 hotel rooms, various food and beverage outlets and approximately 35,000 square meters (equivalent to approximately 377,000 square feet) of themed and innovative retail space.

Studio City Casino is operated by the Gaming Operator, one of the subsidiaries of Melco and holder of a gaming subconcession, and we operate the non-gaming businesses of Studio City. Studio City will assess and evaluate its focus on different market segments from time to time and will adjust its operations as appropriate.

Studio City sits within a ring-fenced credit group separate from its shareholders and Studio City’s debt obligations are not guaranteed by its shareholders. In particular, Melco is not a guarantor under the 2021 Studio City Senior Secured Credit Facility, the Studio City Finance Notes or the Studio City Company Notes. As such, SCI and its shareholders are not contractually required to provide any additional financial support to Studio City with respect to the Studio City debt obligations.

Under our current plan for the remaining project, the remaining project is expected to consist of two hotel towers with a total of approximately 940 rooms and a gaming area of approximately 2,000 square meters. In addition, we currently envision the remaining project to also contain a waterpark with approximately 10,000 square meters indoors and approximately 2,000 square meters outdoors. Other non-gaming attractions expected to be part of the remaining project include MICE space, retail and food and beverage outlets and a cineplex. Based on our current plan for the remaining project, we currently expect a project budget of approximately US\$1.35 billion to US\$1.40 billion for the development of the remaining project (exclusive of any pre-opening costs) and a construction period of approximately 32 months.

In February 2018, we announced that the Macau government granted an extension of the development period under the Studio City land concession contract. Pursuant to such extension, the development period for the land of Studio City has been extended to July 24, 2021. If we fail to fully develop our remaining project under the land concession contract by July 24, 2021, or receive a further extension of the development period from the Macau government, we may be forced to forfeit all or part of our investment in the granted land, along with our interest in Studio City.

The Adjusted EBITDA for Studio City as mentioned in Melco's unaudited third quarter 2018 earnings release dated November 8, 2018 does not reflect the intra-Melco group fees for the Master Services Agreements charged to Studio City Investments Limited and its subsidiaries and the costs related to VIP rolling chip operations at Studio City Casino under the Services and Right to Use Arrangements. The consolidated financials of Studio City Investments Limited contained in this report reflect such intra-Melco group fees charged and the costs related to VIP rolling chip operations at Studio City Casino under the Services and Right to Use Arrangements. In addition, the Adjusted EBITDA for Studio City mentioned above includes operating income or losses generated at Studio City by SCI's subsidiaries which are not subsidiaries of Studio City Investments Limited. Such operating income or losses are not included in the consolidated financials of Studio City Investments Limited. The total variance resulting from the above differences for the third quarter of 2018 is approximately US\$13 million.

Three Months Ended September 30, 2018 Compared to Three Months Ended September 30, 2017

For the third quarter of 2018, our total revenues were US\$143.4 million, an increase of US\$2.1 million, from US\$141.3 million of total revenues for the third quarter of 2017. The increase in total revenues was primarily due to the increase in revenues from the provision of gaming related services. The Company adopted the New Revenue Standard using the modified retrospective method from January 1, 2018. Results for the periods beginning on or after January 1, 2018 are presented under the New Revenue Standard, while prior year amounts are not adjusted and continue to be reported in accordance with the previous basis. There were no material impacts on our total revenues for the three months ended September 30, 2018 as a result of the adoption of the New Revenue Standard from January 1, 2018.

Net loss attributable to Studio City Investments Limited for the third quarter of 2018 was US\$15.2 million, an increase of US\$3.6 million from a net loss attributable to Studio City Investments Limited of US\$11.6 million for the third quarter of 2017, primarily due to a one-time special gift granted to non-management employees.

Studio City Casino generated gross gaming revenues of US\$397.9 million and US\$408.5 million for the third quarters of 2018 and 2017, respectively. Rolling chip volume totaled US\$5.1 billion for both quarters ended September 30, 2018 and 2017. The rolling chip win rate was 3.1% in the third quarter of 2018 versus 4.0% in the third quarter of 2017. The expected rolling chip win rate range is 2.7% - 3.0%. Mass market table games drop increased to US\$807.9 million in the third quarter of 2018 compared with US\$747.1 million in the third quarter of 2017. The mass market table games hold percentage was 27.2% in the third quarter of 2018 compared to 25.0% in the third quarter of 2017. Gaming machine handle for the third quarter of 2018 was US\$641.6 million, compared with US\$581.2 million in the third quarter of 2017. The gaming machine win rate was 2.9% in the third quarter of 2018 compared to 3.3% in the third quarter of 2017. After Melco Resorts Macau deducted gaming tax and the costs incurred in connection with its operation of Studio City Casino pursuant to the Services and Right to Use Arrangements from the gross gaming revenues, US\$82.0 million and US\$80.5 million were recognized as revenues from provision of gaming related services for the third quarters of 2018 and 2017, respectively.

Total non-gaming revenue for the third quarter of 2018 was US\$61.4 million, compared with US\$60.8 million for the third quarter of 2017.

Total net non-operating expenses for the third quarter of 2018 were US\$49.5 million, which mainly included interest expenses of US\$50.2 million, as compared to total net non-operating expenses of US\$47.8 million for the third quarter of 2017, which mainly included interest expenses of US\$48.5 million.

Depreciation and amortization costs of US\$41.5 million were recorded in the third quarter of 2018, of which US\$0.8 million was related to the amortization expense for the land use right.

Nine Months Ended September 30, 2018 Compared to Nine Months Ended September 30, 2017

For the nine months ended September 30, 2018, our total revenues were US\$425.2 million, an increase of US\$31.5 million, from US\$393.7 million of total revenues for the nine months ended September 30, 2017. The increase in total revenues was primarily due to the increase in revenues from the provision of gaming related services as a result of better performance in all gaming segments at Studio City Casino. There were no material impacts on our total revenues for the nine months ended September 30, 2018 as a result of the adoption of the New Revenue Standard from January 1, 2018.

Net loss attributable to Studio City Investments Limited for the nine months ended September 30, 2018 was US\$40.7 million, a decrease of US\$27.4 million from a net loss attributable to Studio City Investments Limited of US\$68.1 million for the nine months ended September 30, 2017, primarily due to the increased revenues from provision of gaming related services mentioned above.

Liquidity and Capital Resources

Up through the opening of Studio City, our principal sources of liquidity included shareholder equity contributions, loan facilities and senior notes facilities to meet our project development needs. Following the opening of Studio City in October 2015, we relied on, and intend to continue to rely on, our cash generated from our operations and our debt and equity financings.

On October 22, 2018, SCI completed an initial public offering of American depository shares (“ADSs” and such offering, the “IPO”) representing the Class A ordinary shares of SCI, and on November 19, 2018, SCI completed the closing of the exercise of the over-allotment option in relation to the IPO. SCI received total proceeds of approximately US\$406.7 million from the ADSs sold in the IPO, including the 28,750,000 ADSs sold initially and the 4,312,500 ADSs sold pursuant to the over-allotment option, and approximately US\$2.5 million from the concurrent private placement to Melco International Development Limited (“Melco International”) in connection with Melco International’s “assured entitlement” distribution to its shareholders, after deducting underwriting discounts and commissions but before deducting offering expenses payable by SCI.

As of September 30, 2018, we held cash and cash equivalents of US\$318.6 million, a bank deposit with an original maturity over three months of US\$20.0 million and restricted cash of US\$27.5 million. Restricted cash represented certain bank account balances required to be maintained in accordance with the terms of the respective agreements of the Studio City Company Notes and the 2021 Studio City Senior Secured Credit Facility. The revolving credit facility under the 2021 Studio City Senior Secured Credit Facility remains available for future drawdown, subject to satisfaction of certain conditions precedent.

Cash Flows

The following table sets forth a summary of our cash flows for the periods indicated. The consolidated cash flows data for the three and nine months ended September 30, 2017 have been adjusted to reflect the retrospective adoption on January 1, 2018 of Accounting Standards Update 2016-18 *Statement of Cash Flows (Topic 230): Restricted Cash (A Consensus of the FASB Emerging Issues Task Force)*. As a result of the adoption, restricted cash is included with cash and cash equivalents in the beginning and ending balances, and the changes in restricted cash that were previously reported within net cash used in investing activities in the consolidated statements of cash flows have been eliminated.

Operating Activities

Operating cash flows are generally affected by changes in operating income and certain operating assets and liabilities, including receivables related to the provision of gaming related services and hotel operations, as well as the non-gaming businesses, including food and beverage, entertainment, mall, retail and other, which are conducted primarily on a cash basis.

Net cash provided by operating activities was US\$58.5 million for the three months ended September 30, 2018, as compared to net cash provided by operating activities of US\$48.4 million for the three months ended September 30, 2017. The increase in net cash provided by operating activities was mainly attributable to decreased working capital for operations.

Net cash provided by operating activities was US\$134.5 million for the nine months ended September 30, 2018, as compared to net cash provided by operating activities of US\$71.0 million for the nine months ended September 30, 2017. The increase in net cash provided by operating activities was primarily due to the higher contribution of cash generated from the improving operations as described in the foregoing sections and decreased working capital for operations.

The change was primarily due to the increase in capital expenditure payments and net placement of bank deposits with original maturities over three months. Net cash used in investing activities for the nine months ended September 30, 2018 mainly included capital expenditure payments of US\$121.4 million, net placement of bank deposits with original maturities over three months of US\$15.1 million and funds paid to an affiliated company of US\$6.1 million.
